

Speaking Exam: Interview Section

To Teachers: At first, we need to lessen students' anxiety and establish a comfortable climate. A warm tone of voice can help us achieve this goal. Then ask some easy and personal questions. Afterwards, ask more questions to elicit responses about other areas of the book. We should modify questions based on the level of our students. We can ask yes/no questions about a topic and then follow up with an open-ended question. By the way, we should ask questions with a normal pace and wait for students to understand the question, prepare their answers and then produce it.

A. You can use the given pictures to interview your students.

۱- What is he like?

۲- What are you like? Or What is your best friend like?

۳- Look at What Ali is doing. (The questions should be seen by the teacher only)
